

April 4, 2020

Re: Have Courage, Have Faith, Be Strong.  
Today and EVERY day there is HOPE.

To Our Valued Covington Homeowners,  
Buyers, Employees, Partners, and Friends.

On Tuesday March 31<sup>st</sup>, the President announced that the Presidential Guidelines for social distancing and mitigation have been extended until April 30<sup>th</sup>. Our Governor has followed suit, and extended the mandatory Stay at Home Public Health Order through April 30<sup>th</sup>, 2020. Likewise, we have updated our health and safety policies and protocols through April 30<sup>th</sup>. These are being updated today and will be available on our website by tomorrow morning.

Ron and I, and our entire Covington Homes team would like to remind every one of our valued customers, homeowners, prospective buyers, trade partners, financial partners, and families that everything is going to be just fine. And rest assured, we will all continue to work tirelessly in our efforts building critical infrastructure and housing for our community. And I am truly Thankful for the service that our entire Covington team is providing to our community.

As each day passes, our incredible team continues to give their all to ensure safe and healthy job-sites for all of our hard-working trade partners and suppliers. And as each day passes I am truly amazed at the sacrifices being made by our entire Covington team to keep the critical infrastructure of Housing going during these very challenging times. While so many are sheltering at home, please remember our brave men and women who are showing up each day with courage and strength to continue build homes for our valued customers and those in our community who need a home in which to live. Please keep them in your prayers (if you are a person of faith) and send them good thoughts and wishes as you think of them.

I am truly amazed at the strength and courage of everyone who is sacrificing so much by sheltering at home, and those who have had to make tough choices in the industries that have been deemed 'non-essential.' I speak not only for myself but for our Covington Homes team when I say that there is NO business that is 'non-essential'. ALL businesses are Essential. All businesses are essential because they offer people work, a purpose, a mission, food on the table, the ability to have housing and healthcare, and so much more.

Right now, Americans are sacrificing for the good of our friends, families, loved ones, and our neighbors. Right now, Americans are doing everything within our power to help each other in the battle against COVID-19. Right now, Americans are helping our neighbors and giving to those who are experiencing an unexpected need. Right now, Americans are lifting each other up. Right now, Americans are pushing forward against the tide of fear and uncertainty and suffering- and making a difference. And as Americans- we are going to WIN this battle.

I have been trying my best to send out daily updates where I continue to see **Light** in the darkness and **Hope** that is already here and coming in the near future. If you would like to be included on any of these daily updates, please let me know and I am happy to include you. And for those of you who have asked to be included I hope you have found the daily updates useful.

Whether you are sheltering in place (spending time with your family and loved ones) or you are waking up each day to ensure that the critical infrastructure and services are there to help keep our country

moving – please know that we are all in this together. And we will all come out of this together. Stronger, better, more resilient, and closer than ever!

So please, consider taking the time to reach out to someone on our team to just say hello. Let them know you are thinking about them and are thankful for their courage and perseverance in this. Give some encouragement. Share a laugh. And I know that you will find when you do reach out and connect with our us you will find that we are here for you.

We are building your new home that will keep you safe and healthy. We are out on the front lines continuing to serve to the best of our ability within the necessary and required parameters that must be followed until we flatten this curve.

As the sun sets tonight we are one day closer to putting this all behind us.

Hang in there everyone. Help is coming and Hope is already here.

Sincerely,

Grace Covington  
Ron Covington  
AND the Whole Covington Team
